

Art Challenge - Week 9

Puppet Making!

Check out the youtube page for 'Little Angel Theatre' Link on school website.

They have performances created by their artists that you can watch, plus lots of tutorial videos on puppet making.

Try to make your own puppets, you could use old packaging, maybe even create a stage from an old cardboard box. Then create a performance for your family!

Please send in pics of your creations – I would love to see them 😊 Miss Murphy

Think about things your puppet show may need:

Characters - animals, people, aliens, whatever!

A Location - create a little place for your puppets, maybe it is a garden or even out in space, use your imagination

A Story - What is going to happen in the performance
