

ASDA

part of the **WAL★MART** *family*

Money! Money! Money!

In this task we have several things to do before we are ready to start! Parents - do as much or as little of this as you want/ that suits! You can do this as a computer activity or print out the slides and sort them that way. It involves using coins to the correct value of the products and then knowing where the products can be found in the supermarket.

To start

1. Get a range of coins ready to be able to use to buy your products.
2. Print out the slides of this document (or you can just do it as you see it on the computer).
3. Cut out the products.
4. Go through each/relevant pictures and count out the correct money.
5. Under the titles, (chilled, fresh, frozen, other), place the pictures according to where they would be stored (Or just go through the pictures verbally).

Extension task...

- With £5.00 create a list of food you could buy to make lunch with.
- With £10.00 create a list of food you could buy to make dinner with.
- Calculate the change from your shopping lists.

Have fun 😊

FROZEN

CHILLED

FRESH FOOD

OTHER

1kg chicken breast fillets
£5.50

2kg whole chicken
£3.00

400g chopped tomatoes
